

SAMPLE / SYNTHETIC MEDICAL REPORT

For MedExplain frontend and PDF-processing testing only — not a real medical record.

Complete Blood Count (CBC)

Patient Name	Aarav Sharma	Patient ID	SYN-001
Age / Sex	34 / Male	Report Date	2026-09-18
Ordering Clinician	Dr. R. Mehta	Status	Final

Findings

Parameter	Result	Reference / Comment
Hemoglobin	14.2 g/dL	Synthetic reference: 13.5–17.5 g/dL
WBC Count	$7.4 \times 10^9/L$	Synthetic reference: $4.0\text{--}11.0 \times 10^9/L$
Platelets	$248 \times 10^9/L$	Synthetic reference: $150\text{--}450 \times 10^9/L$
RBC Count	$4.9 \times 10^{12}/L$	Synthetic reference: $4.5\text{--}5.9 \times 10^{12}/L$
Hematocrit	42 %	Synthetic reference: 41–53 %
MCV	86 fL	Synthetic reference: 80–100 fL

Impression

All listed CBC parameters are within the synthetic reference intervals provided in this sample report.

Additional Notes

This document is intentionally synthetic and is intended to test file upload, PDF parsing, text extraction, and frontend rendering.

Synthetic data created for software testing. It does not represent a real patient and should not be used for clinical decision-making.
